

## How to Make Girls Want You!

How to Make Girls Want You! is a guide for the average guy who is struggling to have success with the opposite sex. This book contains practical advice for attracting girls and real-world examples that you can use now to improve your own life. As you're probably well aware, there are a huge number of so-called systems out there that promise a magic-bullet solution for attracting girls. I'm here to tell you that they are, for the most part, total crap. A number of the most popular systems promote bombarding the girl you like with subtle negative comments to erode her self-confidence. Think about how silly that sounds. Most guys who need this kind of help don't possess the courage or self-confidence to even ask a girl out on a simple date, let alone pepper her with negative comments to her face. Not only are these overly complicated methods for attracting women a waste of your time, they'll actually hurt your chances. How to Make Girls Want You! is not one of these overly elaborate systems. Rather, it's a smack in the face with some useful, real-world advice that you can implement to make your life better...immediately! The reality is that I've made a lot of mistakes over the years before I stumbled onto what actually works. I know how you can get girls to like, respect, and want to date you. Now I want to put that accumulated knowledge to work for your benefit! Let's get started together....
