

## The Pattern

The author believes that The Pattern is a part of a message sent directly from God to His people. These revelations were born out of his personal experience and walk with the Lord. Every Christian, therefore, should read this book and glean for his or her own profit whatever God speaks from these pages. The Pattern is a unique book, in which the author attempts to translate the typology of the ancient tabernacle of Moses into meaningful Biblical instructions for our time. In this work KEYS are given to the reader, which open up much understanding of previously closed areas of the Bible. The whole message of the Bible is written in on picture-The Tabernacle of Moses. Correct interpretation of this picture will reveal the true message of every word of God. The true message is needed as a plumbline, to correct both our Biblical understanding and the quality off our lives.
